

Website:

An aerial application for mosquito control is planned. A granular product (resembling kitty litter) will be applied to standing water, by low flying fixed wing aircraft, for the control of immature (larval aquatic stage) mosquitoes by the Warren County Mosquito Control Commission. The product is VectoBac GS, active ingredient *Bacillus thuringiensis* subspecies *israelensis* also known as *Bti*.

Date(s): June 4, 2025, alternate date June 5, 2025
