

Website:

**An aerial application for mosquito control is planned. A granular product (resembling kitty litter) will be applied to standing water, by low flying fixed wing aircraft, for the control of immature (larval aquatic stage) mosquitoes by the Warren County Mosquito Control Commission. The product is VectoBac GS, active ingredient *Bacillus thuringiensis* subspecies *israelensis* also known as *Bti*.**

**\*\* This application notification is based on the significant rainfall forecasted for July 31, 2025 into August 1, 2025, the amount of rainfall received and the larval mosquito activity will determine treatment.\*\***

**Date(s):        August 4, 2025,    alternate date August 5, 2025**

**Time:            Dawn to Dusk**

**Locations:**

|                                 |   |
